PREFACE

The Association of Municipal Historians of New York State Name/Location Survey Project 1995-1997 is an inventory of New York State cemeteries, intended as an educational research tool and reference volume. This New York State Cemeteries Inventory has been compiled by municipal and county historians. The inventory has the distinction of being AMHNYS first state-wide community service project. An addendum is anticipated.

The project was the dream of the late Dr. Andrea Shaw, President of AMHNYS, and the late Mr. Pierce O'Callaghan, Director of the New York State Division of Cemeteries. Upon their deaths, Dr. Marilyn J. Van Dyke, AMHNYS current President, helped provide leadership for the endeavor. The County Historians Association of New York State (CHANYs), under the leadership of Mr. Thomas Eldred, also supported the project.

In an attempt to be thorough, every effort was made to reach all historians across the state for their input. In communities where no data was either available or submitted it is so noted in the text.

ACKNOWLEDGMENTS

Thanks to the libraries and genealogical and historical societies throughout the state without whom this project would not have been possible.

INTRODUCTION

AMHNYS History The Association of Municipal Historians of New York State was founded in 1972 and is the professional organization for the New York State Municipal (City, Town and Village) Historians. The purposes are 1) to encourage local units of government to appoint official historians in compliance with Section 148 of New York State Educational Law; 2) to promote the training and establishment of professional standards for individuals appointed as local historians; and 3) to encourage local units of government to support the collection, preservation, interpretation and dissemination of the history of their communities and to support the work of appointed historians.

Membership is open to county historians and through Associate level memberships to all interested in New York State local history. AMHNYS offers conferences including training sessions and workshops with the County Historians Association of New York State (CHANYS) and publishes the *Historians Exchange*, a bi-annual newsletter. AMHNYS has eight chapters or regions across the state; it is a non-profit organization that works closely with the New York State Historian's Office. For further information, contact your local historian.

New York State History New York has rich and diverse history from Native American pre-history to the Dutch and English colonization, to the migrations from New England, to the present day multi-ethnic and religious composition.

In 1664 the British captured New Netherlands and renamed it after the Duke of York, later James II. New York became the eleventh state of the United States on July 26, 1788. Albany became the state capital in 1797.

New York State's present day counties number sixty-two. This total includes the five boroughs of New York City. New York City served as the first national capital from 1785-1790 and continues to play an important role in national and international affairs.

Today, New York is proud of its mix of business, industry, tourism and agriculture. This is accompanied by artistic and cultural endeavors offering its citizens a fine quality of life.
